

Inline Functions

WRITE A PROGRAM TO MAKE AN INLINE FUNCTION

RUDRA CHINHARA

CODE

```
14 lines (11 sloc) | 200 Bytes
Raw Blame

1 // Program to make an inline function
2
3 #include <iostream>
4 using namespace std;
5
6 void printHello()
7 {cout<<"Hello World!\n";}
8
9 int main()
10 {
11     // Calling the function
12     printHello();
13     return 0;
14 }
```

OUTPUT

```
Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows
